BREMSKERL

Der Spezialist für Brems- und Kupplungsbeläge The specialist for brake and clutch linings

BREMSKERL R600

To ensure an efficient and reliable operation of brakes in wind turbines with high energy loads, we recommend the use of our premium quality **BREMSKERL R600**.

YOUR BENEFITS

- High quality.
- Long service life.
- Seduced maintenance and repair effort.
- Sood price-performance ratio.
- High load capacity.
- Large variety of geometries

THEREFORE BREMSKERL

 Sintered metallic friction material, specially developed for rotor and azimuth disc brakes.

B

R600

- ✓ High temperature resistance.
- Excellent friction behaviour.
- ✓ Very high wear resistance.
- ✓ Reliable operation even under the toughest operating condition.

BREMSKERL products are REACH and RoHS compliant, PfHS-free and benefit from more than 90 years of experience in the development and manufacture of brake and friction linings.

BREMSKERL your expert for friction technology!
